

S/N	Emission Symbols	Examples from sample
1	Numbers	2, 3, 4
2	Words : considered	This should not merge even though line seems to filled, as second column have column have numbers
3	Short statements	This one should not merge as textStyles are not same in this And next line
4	Long statements	I have personally embarked on some projects and also embarked on some other projects as a member of a team. The following are some of the projects
5	Title case statements	This should not merge even though line seems to filled, as first column have numbers
5.5		
6	Capital letter statements	This one should not merge as Color are not same in this And next line
7	Words	This should not merge as more than 15% of above cell is empty
This ent	Is a special case here we but it will not merge as	have same textStyles, color, even unique cell pattern is abs- more than 2 cloumns are overlapped
